15B. CONTRACTOR/OFFEROR _____ (Signature of person authorized to sign)		15C. DATE SIGNED		16B. UNITED STATES OF AMERICA BY _____ (Signature of Contracting Officer)		16C. DATE SIGNED 12-Sep-2003	

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

This amendment provides answers to offeror's questions concerning Solicitation N65540-03-R-0078:

Question 1. In Section C.3.3., first paragraph, what is meant by "The use of aftermarket parts is not permitted"?

Answer - For the purposes of this contract, "the use of aftermarket parts is not permitted" means that part numbers not traceable to the OEM and (or) not listed in the US Navy LM2500 Illustrated Parts Breakdown S9234-AD-MMO-070 through S9234-AD-MMO-090/LM2500 technical manuals are not permitted to be used in the repair of the TMF. The contractor shall only use parts identified in the US Navy LM2500 Illustrated Parts Breakdown S9234-AD-MMO-070 through S9234-AD-MMO-090/LM2500. These are the only US Navy approved parts.

Question 2. In Sections C.3.3 and C. 3.4., may we assume the only part/component/material being furnished is Kit Part Number 135042, and that all other parts/components/material must be furnished by the Contractor and the price thereof be included in CLIN 0001AB.

Answer - The only upgrade kit being provided by the US Navy at no cost to the contractor is GTB 24R1 (kit PN 135042). All other parts/components/material must be provided by the contractor and the price thereof included in the repair cost proposal.

Question 3. Paragraph p. in Section C.3.4 states to repair TMF LPT stage 1 nozzles. Please clarify because these nozzles are not part of the TMF.

Answer - The TMF LPT stage 1 nozzles (Qty: 14) are included in the TMF assembly to be repaired. See Index No. 32 of US Navy technical manual S9234-AD-MMO-070/LM2500, Figure 8-16 for clarification.

Question 4. In Section C.3.4., the technical instructions for the workscope requested in paragraphs a, b and h through o are not contained within the Navy LM2500 overhaul manual S9234-AB-MMD-XX. What technical authority (references) are we to work to in performing these worksopes?

Answer - When a required repair procedure is not contained in the US Navy LM2500 technical manuals, the use of commercial General Electric technical manual repair procedures is permitted in lieu of the US Navy technical manual only after the contractor has requested (in writing) and received technical approval from NSWC Code 9333 prior to commencing the repair. See Section C.2.3 of the Statement of Work.

The contractor may also propose/request to use an alternate commercial General Electric repair procedure if the contractor believes that the proposed repair procedure is technically better than the US Navy repair procedure. Otherwise, the US Navy LM2500 technical manual repair procedures take precedence over commercial General Electric repair procedures.
